

Instructions for Submitting a Student Poster

Creating an AcademyHealth Account:

To participate in AcademyHealth's conferences, you need to have an account with AcademyHealth. Our goal is for each person to have one account, which will be linked to a single email address and reduce duplicate records. Please use the same email address for all AcademyHealth related activities (conference registration, abstract submission, membership, etc.) going forward. You will be prompted to login when you click on the "Begin a Submission" button. If you already have an account, simply login, and you will be sent directly to the webpage you are seeking. If you are setting up a new account, you will need to return to the main Call for Papers page to begin a submission after your account is created.

Abstract ID and Password:

- When you begin an abstract submission, an e-mail message will be sent to you with your abstract ID and password.
- Your ID and password will also be displayed on the left hand of the screen during the submission process.
- Once your submission has been started, you may exit the submitter and return at any time before the abstract deadline using your abstract ID and password.
- While you are submitting an abstract, program organizers can see your work to provide assistance if you encounter any issues.

Steps:

Step 1 – Theme

- Select the theme that best fits your abstract. You may use the theme descriptions (on the left sidebar) to help select the most appropriate theme.

Step 2 – Title

- Enter your abstract title in title case. Do not end titles with a period.
- Select your primary funding source.

Step 3 – Author

- Type the lead presenter's last name or email in the provided box.
- If the author is already in the system, you can select their pre-populated information or update the information from previous years.
- If the author is not already in the system, you will be prompted to create a new record.
- You must include information for all fields with a star.
- To add additional authors, click the 'add new author' button.
- You can edit the order of the co-authors by using the up and down arrows. The order they appear on the screen is the order they will be listed online.
- Only one author should be selected as the presenting author.

Step 4 – Abstract Text

- Enter the text of your abstract (maximum 500 words).
- Do not remove the pre-populated headings. They do not count toward your word count.
- Do not include authors' names or references.
- You may include tables and special characters as desired.

Step 5 – Confirmation

- Review your abstract.
- You may return to any step of the process by using the left hand navigation bar.
- You may print your abstract at this point.
- Once your abstract is complete, press the 'conclude submission button.'
- You may return to your abstract to review or edit at any point before the January 11th deadline using your abstract ID and password.
